

# Guidance for Grant Spending

When planning your Local Grant Budget, please follow this

## Rule of Thumb

# "80 – 10 – 10"

**80%** of Grant to be spent on Teacher Time  
for meetings, training time, school visitations, etc.  
(may include substitutes, teacher in-state travel to visit  
other SIG sites, in-state conference expenses, etc.)

**10%** of Grant spent on Teacher Support Materials  
needed for training of teachers/staff in scientifically  
researched practices

**10%** of Grant spent on contracting with Outside Expertise  
(i.e. consultants, speakers, etc.) to develop staff skills  
in behavioral and instructional supports for students.

For more specific information on grant spending,  
please refer to **"Allowables and ~~NON-Allowables~~"**  
to help guide your budget thinking.
